The AGM resolved to adopt the Board's report regarding compensation pursuant to Chapter 8, Section 53 of the Swedish Companies Act.

Further, the AGM resolved to approve the Board's proposal regarding the implementation of a long-term incentive program in the form of an option program comprising all employees and other key persons in the company. The option program comprises a maximum of 817,500 stock options and the participants may be allotted options free of charge based on performance and continued employment. Each option entitles the holder to subscribe for one new share in BioInvent during the period from the day of release of the company's year-end report for the financial year 2025 up to and including 28 February 2027. The subscription price per share shall correspond to 125 per cent of the volume-weighted average price paid for the company's share on Nasdaq Stockholm during ten trading days as from and including 27 April 2023 (i.e., the first trading day after the publication of the company's interim report for January – March 2023). To enable the company's delivery of shares pursuant to the option program and to secure costs connected therewith, primarily social security charges, the AGM resolved on a directed issue of maximum of 948,300 warrants (corresponding to approximately 1.40 per cent of the total number of shares and votes in the company) and approval of transfer of warrants.

Last, the AGM authorized the Board to resolve on the issue of new shares, on one or several occasions during the period up to the next annual general meeting. The number of shares to be issued by virtue of the authorization shall not entail a dilution effect of more than 20 per cent of the registered share capital after completed issue. The issue may take place with or without a deviation from the shareholders' preferential rights and with or without provisions on contribution in kind or set-off or any other terms. The purpose of the authorization is to increase the company's financial flexibility and enable acquisitions by payment of shares. If the Board resolves on an issue with deviation from the shareholders' preferential right the reason may be to add new capital and/or new company owners of strategic importance to the company and/or the acquisition of other companies or businesses. At a deviation from the shareholders' preferential right, the issue rate shall be determined in accordance with market conditions. Other terms may be resolved by the Board.

The minutes from the AGM will be available on the Company's website, www.bioinvent.com.
